PRINCIPAL'S MESSAGE

Sri Krishna Degree College has steadily grown to its present status as one of the leading degree colleges of Bangalore. This is reflected in achieving the prestigious NAAC Accreditation, National and State awards in NSS Activities but above all in the perceptions of the society and the public that the institution strives to serve.

The purpose of education is to teach our children to think and develop a capacity to reason out facts. Students should keep in mind the importance of planning and prioritizing their time and the effective use of it which are essential to achieve success.

Students should always think and review – discover the cause and effect of every event, in which they are involved. Do not surrender or become a slave to youthful fancies and indulgences. Be steady in your studies. Learn to enjoy hard work – particularly your studies. Think wisely, think systematically. Be very serious and attentive in class.

Preserve our heritage and environment for yourself as well as for your next generation. Always be a soldier to defend and preserve our traditions and our territory. With experienced and dedicated teachers and excellent infrastructure, our college helps students to realize their goals in life. I encourage all students to take advantage of the opportunities provided by the college and involve themselves in all the extracurricular activities that are offered. The overall development of the mind and body is a sign of a healthy and complete development.

Hard work, dedication and perseverance are the most important traits in a person that lead to success. The future belongs to you, your need is to prepare yourself for an active participation in the world. This participation demands that you become well informed and hence develop yourself like a pioneer and ultimately grow as responsible men and women.
