

Sri Krishna Degree College,
Bangalore-85.(Affiliated to BCU)

BEST PRACTICES ADOPTED BY THE INSTITUTION
for the year 2019-2020

7.2 Describe at least two institutional best practices.

What are best practices and why do we need them

One of the main agenda of the Higher Educational Institutions is the “transformation” of the society. Most of the institutions are the “centres of transformation” as they are related to transforming the lives of thousands of students. The time a student spends in a university or a college is one of the most important phases of their lives, a most “transformative” phase which helps in designing their futures. Thus the institutions and colleges must strive to provide the best possible environment and support to their students to achieve the same. Transformation of students lives and changing the lifestyles of those involved in their education system becomes one of the best practices that are essentially observed by a good institution. These best practices provide great impetus to the institutions and “transforming the lives” forms an acute sentiment that is well incorporated in the mission of the institution.

The dreams carried by a student joining the institution are varied and include a confidence on the institution and an expectation that the college where they study will help them in attaining the “transformative experience” that makes them to strive towards becoming good citizens.

Sri Krishna Degree College, too, has made positive efforts by offering our students the transformative environment and opportunities for their welfare. The institution has made a wholehearted commitment to follow best practices and to transmute the lives of the students for greater achievement and success. The institution has made good efforts by encouraging the students to accept the encounters that they face and “embrace new experiences” that they face in the college. In this regard, the institution takes up a positive strand.

1. Title of the practices

A. ENDORSEMENT OF PATRIOTISM

B. ADAPTING TO THE PRESENT TECHNOLOGICAL TEACHING AND LEARNING CULTURE

A. ENDORSEMENT OF PATRIOTISM:

Objectives of the practice:

The youth have the strong inbuilt sense of patriotism. They express their opinions, as they are concerned about the future of the country. So it is important to motivate students towards constructive path by introducing the leader quality in them to cultivate patriotism. In this context it is important that the youth of the country is properly informed of their responsibility and this part is to be played by educational institutions.

The Practice:

- To inculcate Patriotic values into the culture of the students, **Gandhi Study Centre** and **Ambedkar Study** is started in the college. These study centres educate students on the civic responsibilities. Many sessions were arranged so that students are aware of the insights of these great personalities.

- Books related to these topics is included in the library to inculcate values in the children.
- Voter's Day is organised in the college and the importance of voting is instructed to the staff and students and encourage them to vote.
- Different Social initiatives are organised by the NSS unit of the college which induces patriotic feelings and love towards the country,
- **Setback to comeback** – an online webinar was conducted in coordination with ISKCON, Bangalore
- Many of the students of the college has worked as Covid warriors and has helped in Vaccination drives, food distribution and also in Burial grounds.
- During the Kodagu floods, students from the college collected funds and visited Virajapete and distributed relief materials in the remote villages.

Evidence of success:

Many students participating in these programs prove that the NSS unit of the college and the Management was successful in inducing partriotic feelings in the children. The students themselves voluntarily participate in all such activities.

B. ADAPTING TO THE PRESENT TECHNOLOGICAL TEACHING AND LEARNING CULTURE

Objectives of the practice:

- To fill the void, which the pandemic has created in the Education sector.
- To give continuity to the student's learning process which was halted due to the pandemic
- Enhance the quality of learning and teaching.
- Meet the learning style or needs of students

The Practice:

THE VARIOUS ONLINE ACTIVITIES ARRANGED IN THE COLLEGE:
